

Catalog # 11-1007 Sodium oxide/sodium on alumina, Olefin Isomerization Catalyst (Na<sub>2</sub>O 11.5-13.5%, Na 1.8-3.0%)**Catalyst benefits:**

- Very active and highly selective olefin isomerization catalyst
- Highly resistant to catalyst poisons (tetrahydroindene, cyclopentadiene, etc.)

**Uses:**

- Diene monomer in the production of EPDM rubber.
- Scent carrier for flavors and fragrances.
