

Catalog # 11-1615 CALLERY™ Sodium mentholate, 50% in hexanes

Technical Notes:

1. Used in synthetic process of high vinyl rubber
2. The menthol compound provides antibacterial, anti-inflammatory, and bacteriostatic effects
3. Used as a polar modifier on microstructure of polybutadiene obtained by anionic polymerization

References:

1. Patent No.: US 7 291 687 B1 (**2007**)
2. Patent No.: US 2016/0009616 A1 (**2016**)
