

Catalog # 15-1168 2-(Di-t-butylphosphino)-3-methoxy-6-methyl-2'-4'-6'-tri-i-propyl-1,1'-biphenyl, min. 98% RockPhos

Note: Patents: US 6,395,916, US 6,307,087

Technical Note:

1. Ligand used in the palladium-catalyzed C-O bond forming reactions of secondary and primary alcohols with a range of aryl halides. Heterocyclic halides and, for the first time, electron-rich aryl halides can be coupled with secondary alcohols.
