Catalog # 26-1618 1,1-Bis((2R,5R)-2,5-dimethylphospholano)ferrocene, min. 97%

**Technical Notes:** 

- 1. Ligand for the palladium-catalyzed, atroposelective C–P coupling process for the asymmetric synthesis of QUINAP and its derivatives.
- 2. Ligand for rhodium driven hydroaminomethylation involving styrene and piperidine.
