

Catalog # 44-7785 Tricyclohexylphosphine[1,3-bis(2,4,6-trimethylphenyl)imidazol-2-ylidene][2-thienylmethylene]ruthenium(II) dichloride, min. 95% [catMETium® RF 2]

Note: Sold in collaboration with Evonik for research purposes only. Patent US 6635768. For use in pharmaceutical applications only. Uses other than pharmaceutical applications are not authorized.

Technical Note:

1. Efficient catalyst for ring-closing metathesis.
