

Catalog # 26-0201 (-)-1,1'-Bis((2S,4S)-2,4-diethylphosphotano)ferrocene, min. 95% (S,S)-Et-FerroTANE®

Note: Sold on collaboration with Chirotech for research purposes only. US Patent no. 5936109.

Technical Notes:

1. Ligand for the asymmetric Rh-catalyzed hydrogenation of itaconates.
2. Ligand for the asymmetric Rh-catalyzed hydrogenation of β -aryl substituted β -amino acrylates.
3. Ligand for the Pd-catalyzed dynamic kinetic enantioselective arylation of silylphosphines.
