

Catalog # 26-3701 (S)-(-)-4-Pyrrolidinopyrindinyl(pentamethylcyclopentadienyl)iron, min. 98% (S)-PPY*

Technical Note:

1. Planar-chiral catalyst useful in a variety of enantioselective addition reactions. For example, ketenes were coupled with 2,2,6,6-tetrachlorocyclohexanone in a catalytic asym. synthesis of tertiary chloroesters.
