

## **Building a Pathway to** Domestic API Production

# ABOUT ASCENSUS

Ascensus Specialties is one of the world's leading providers of specialty chemicals for a variety of industries.

Our chemistries improve the way our clients create their products by making what they do easier, more efficient, safer, and more selective. From our world-class production plants in Elma, Washington, and Evans City, Pennsylvania, we have a global reach that ensures our clients can consistently manufacture their products at the highest standards. What does all of this mean? Our clients are able to make the best possible products to change people's lives for the better, and we're able to make the world a better place with chemistry made for what matters.

## ► OUR CAPABILITIES

(WHAT WE DELIVER)

### Broad Product Portfolio

We offer a large portfolio of borohydrides, borane derivatives, specialty alcoholates, and alkali metals to efficiently tackle your challenging synthesis goals.

### Reliable Supply

With over 60 years of experience in specialty reagents, our two U.S. manufacturing sites have perfected our processes to ensure you are getting what you need when you need it.

### Research & Development

Our Evans City, PA location offers enhanced R&D and application development capabilities. Our team and site are available to help from lab to commercial scale ups.

### Technical Support

We provide our regulatory and handling expertise to your team members to help keep your operations and employees safe.

Our chemistries are used in the manufacture of a variety of Active Pharmaceutical Ingredients (APIs) deemed essential by the U.S. Food and Drug Administration under the Essential Medicines Executive Order. By partnering with us, we can help create a secure supply of domestic pharmaceuticals that enable you to make the best products you can and change people's lives for the better.

## ► OUR OFFERING

(HOW WE CAN HELP YOU DEVELOP MEDICINES THAT CHANGE PEOPLE'S LIVES)

Our specialty reagents are currently being used to manufacture or could be used to manufacture the following APIs:

- Albuterol
- Amlodipine
- Apixaban
- Artesunate
- Atropine
- Azithromycin
- Baloxavir marboxil
- Benztropine
- Ceftazidime-Avibactam
- Codeine
- Cyanocobalamin
- Darunavir/cobicistat
- Fentanyl
- Flumazenil
- Hydrocortisone
- Ibuprofen
- Labetalol
- Levofloxacin
- Linezolid
- Metoprolol
- Midazolam
- Moxifloxacin
- Omadacycline
- Peramivir
- Rocuronium
- Tacrolimus
- Ticagrelor
- Timolol Maleate
- Topical/surface alcohol-based sanitizers
- Trimethoprim/Sulfamethoxazole
- Vancomycin
- Vecuronium
- Vitamin K
- Voriconazole

## ► OUR POTENTIAL OFFERING

(HOW WE COULD HELP YOU DEVELOP MEDICINES THAT CHANGE PEOPLE'S LIVES)

While our current product portfolio isn't being used to produce the following APIs, our sites are capable of developing the necessary compounds. And, we enjoy expanding our product line to best serve our customers.

- Alteplase
- Amiodarone
- Ciprofloxacin HCl
- Etomidate
- Fluconazole
- Morphine
- Ondansetron
- Oseltamivir
- Pantoprazole
- Propofol
- Propylthiouracil

As we look to the future, our goal is to remain a valuable asset to our partners. As you work hard to create a path to domestic production of APIs, we will be there to support you because we believe that our partnership helps each of our customers do better and create better. So, we can all focus on making positive impacts on people's lives with **chemistry and medicines made for what matters.**
