· 3.1 Chemical characterisation: Substances

· CAS No. Description

53199-31-8 Bis(tri-t-butylphosphine)palladium(0), 98%

(Contd. on page 2)

GB

Printing date 17.07.2021

Revision: 17.07.2021

Trade name: Bis(tri-t-butylphosphine)palladium(0), 98%

(Contd. of page 1)

#### **SECTION 4: First aid measures**

- 4.1 Description of first aid measures
- · General information: No special measures required.
- · After inhalation: Supply fresh air; consult doctor in case of complaints.
- After skin contact: Immediately rinse with water.
- After eye contact: Rinse opened eye for several minutes under running water. Then consult a doctor.
- · After swallowing: If symptoms persist consult doctor.
- · 4.2 Most important symptoms and effects, both acute and delayed No further relevant information available.
- $\cdot$  4.3 Indication of any immediate medical attention and special treatment needed
- No further relevant information available.

#### **SECTION 5: Firefighting measures**

- · 5.1 Extinguishing media
- Suitable extinguishing agents: Use fire extinguishing methods suitable to surrounding conditions.
- · 5.2 Special hazards arising from the substance or mixture No further relevant information available.
- · 5.3 Advice for firefighters
- · Protective equipment: No special measures required.

#### **SECTION 6: Accidental release measures**

- · 6.1 Personal precautions, protective equipment and emergency procedures Not required.
- · 6.2 Environmental precautions: No special measures required.
- 6.3 Methods and material for containment and cleaning up: Dispose contaminated material as waste according to item 13.
- · 6.4 Reference to other sections
- See Section 7 for information on safe handling.
- See Section 8 for information on personal protection equipment.

See Section 13 for disposal information.

#### **SECTION 7: Handling and storage**

- · 7.1 Precautions for safe handling No special measures required.
- · Handling: Handle under inert gas.
- · Information about fire and explosion protection: No special measures required.
- · 7.2 Conditions for safe storage, including any incompatibilities
- · Storage: Store contents under inert gas.
- Requirements to be met by storerooms and receptacles: No special requirements.
- · Information about storage in one common storage facility: Not required.
- · Further information about storage conditions: None.
- 7.3 Specific end use(s) No further relevant information available.

# SECTION 8: Exposure controls/personal protection

• Additional information about design of technical facilities: No further data; see item 7.

· 8.1 Control parameters

• Ingredients with limit values that require monitoring at the workplace: Not required.

(Contd. on page 3)

CHEMICALS, INC.

Revision: 17.07.2021

Const. of pe Additional information: The lists valid during the making were used as basis. 8.2 Exposure controls Personal protective equipment: General protective and hygienic measures: The usual precautionary measures are to be adhered to when handling chemicals. Respiratory protection: Not required. Protection of hands: With a statistic stress of the product of the substance/ the preparation. Due to missing tests no recommendation to the glove material can be given for the product of the preparation. Due to missing tests no recommendation to the glove material can be given for the product of the preparation. Due to missing tests no recommendation to the glove material can be given for the product of the preparation. Due to missing tests no recommendation to the glove material can be given for the product of the preparation chemical mixture. Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradatio Material of gloves The selection of the glove material Material of gloves and sub of the manufacturer to the protective gloves and has to observed. Eye protection: Safety glasses 9.1 Information on basic physical and chemical properties General Information Appearance: Form: Crystalline Colour: Whitish Odour: Odoure: Not applicable. Change in condition Meling point(frecing point: Initial boiling range: Undetermined. Flash point: Fashosine temperature: Not determined. Flash point: Fashosine temperature: Not determined. Fundability (solid, gas): Product is not flammable. Explosion temperature: Not determined. Fundability point and boiling range: Not determined. Fundability prosection: Not determined. Explosion hazard. Explosion hazard. Explosion hazard. Explosion hazard: Explosion hazard: Explosion hazard: Explosion hazard: Product does not present an explosion hazard. Explosion hazard. Explosion hazard. Explosion hazard: Explosion hazard: Product does not present an explosion hazard. Explosion hazard:	nde name: Bis(tri-t-butylphosphine)pall	adium(0), 98%
8.2 Exposure controls Personal protective and hyginenic measures: The usual precautionary measures are to be adhered to when handling chemicals. Respiratory protection: Not required. Protection of hands:  The glove material has to be impermeable and resistant to the product/ the substance/ the preparation. Due to missing tests no recommendation to the glove material can be given for the product/ the preparation. Due to missing tests no recommendation to the glove material can be given for the product/ the preparation. # **SECTION 10: Stability and reactivity**

- · 10.1 Reactivity No further relevant information available.
- · 10.2 Chemical stability
- Thermal decomposition / conditions to be avoided: No decomposition if used according to specifications.
- · 10.3 Possibility of hazardous reactions No dangerous reactions known.
- 10.4 Conditions to avoid No further relevant information available.
- 10.5 Incompatible materials: No further relevant information available.
- · 10.6 Hazardous decomposition products: No dangerous decomposition products known.

#### **SECTION 11: Toxicological information**

· 11.1 Information on toxicological effects

- Acute toxicity Based on available data, the classification criteria are not met.
- · Primary irritant effect:
- · Skin corrosion/irritation Based on available data, the classification criteria are not met.
- Serious eye damage/irritation Based on available data, the classification criteria are not met.
- · Respiratory or skin sensitisation Based on available data, the classification criteria are not met.
- · CMR effects (carcinogenity, mutagenicity and toxicity for reproduction)
- $\cdot$  Germ cell mutagenicity Based on available data, the classification criteria are not met.
- $\cdot$  Carcinogenicity Based on available data, the classification criteria are not met.
- *Reproductive toxicity Based on available data, the classification criteria are not met.*
- STOT-single exposure Based on available data, the classification criteria are not met.
- $\cdot \textit{STOT-repeated exposure Based on available data, the classification criteria are not met.}$
- · Aspiration hazard Based on available data, the classification criteria are not met.

# **SECTION 12: Ecological information**

- · 12.1 Toxicity
- Aquatic toxicity: No further relevant information available.
- 12.2 Persistence and degradability No further relevant information available.
- 12.3 Bioaccumulative potential No further relevant information available.
- · 12.4 Mobility in soil No further relevant information available.
- $\cdot$  Additional ecological information:
- · General notes: Not known to be hazardous to water.
