

Catalog # 07-1171 (2S)-(+)-N-Methyl- α,α -diphenyl-2-pyrrolidinemethanol, min. 98%

Technical Notes:

1. Microwave assisted aryl transfer to aldehydes using the ligand.
2. Ligand used in the synthesis of enantioenriched α -(hydroxyalkyl)-tri-*n*-butylstannanes.
3. Catalytic asymmetric arylation of aliphatic aldehydes using a B/Zn exchange reaction.
4. Oxy-allyl cation catalysis: An enantioselective electrophilic activation mode.
